Re: Arts Alive Program

Dear Danny:

Please accept this letter as acknowledgment and appreciation from the Office of Economic and Workforce Development of the City and County of San Francisco for generously sharing details of your Arts Alive program with us. We are grateful to the 101 Artists' Colony for allowing us to model an Arts Alive program for our Ingleside community after the program that you have carefully developed through many years of experience in Encinitas.

I appreciated the warm welcome at the 16th annual Arts Alive Unveiling Reception and thoroughly enjoyed the event. The impressive turnout at the reception was a clear indication of the Arts Alive program's popularity not only with the participating artists, but also with the general public. It is obvious the Encinitas Arts Alive program goes far in bringing your city recognition and fostering the arts.

Kudos to the 101 Artists' Colony as a private, nonprofit, all-volunteer organization for initiating and sustaining a program of this magnitude for your city. The success of your Arts Alive program inspires organizations and cities to initiate similar programs that bring original art to the community and give artists the opportunity to showcase their talents with the public at large.

Sincerely,

Richard Kurylo
Project Manager
